-

EXPERIENCE

Forum Moderator 2008-Present

</dream.in.code> :: <http://www.DreamInCode.net>

- Responsible for overseeing the activities of 120,000+ members
- Providing friendly help and advice in a range of languages and skills
- Input on the decisions for future development to the site
- Contributed a variety of snippets/tutorials:
<http://www.dreamincode.net/home/?p=kudos&kudosmember=68172>

Open Source Development

The Snippet Manager :: <http://www.sourceforge.net/projects/snippetmanager>

- An application for storing snippets for various languages. Key features include syntax highlighting, tabbed browsing, clipboard recording and more.

X-Twitter :: <http://www.sourceforge.net/projects/x-twitter>

- A simple Twitter client with a less-conventional user interface. Key features include automatic friend updates and an "Intelli-sense like" feature, which lists all followed members when the user enters the '@' symbol (for a reply)
- Unfortunately, due to recent updates to Twitter, the application no longer works. However, I *do* plan to find an alternative method to repair the software.

Cannock Chase High School

2001 - 2007

Cannock, Staffordshire
